STANSTED

About

Welcome to our new College at London Stansted Airport.

The College is a partnership between London Stansted Airport and Harlow College - the first of its kind at any airport in the country.

We will be opening our doors in September 2018, offering an exciting range of technical and professional courses, in the disciplines of Aviation, Engineering, Business, Hospitality and Events. We want to recruit a pool of talented young people who are keen to progress their careers in the aviation industry.

Career Opportunities

The centre offers the opportunity to:

- Gain top quality, industry recognised qualifications taught by experienced professionals
- Access real work experience and live briefs, from the 200+ business partners around the airport
- Learn as part of an employer sponsored programme, with professional talks and business mentoring
- Have guaranteed interviews for apprenticeship and job opportunities
- Progress to higher levels of study including apprenticeships and degrees

It builds on the reputation of Harlow College for consistent high quality and excellent student progress. The College is one of the top colleges in the country for academic and vocational progress according to DfE performance tables. This means its students do better than if they had studied in a college or sixth form elsewhere.

The £11million College will also be the first of its type to be built in the Uttlesford District. The two-story campus will be located on the airport's land directly opposite the Novotel. It will have purpose built, industry standard facilities providing training for 500 young people per year.

AVIATION & BUSINESS SERVICES

What's it all about?

Business services are at the heart of all operations at the airport and understanding the basics of business in today's world of work is an essential foundation for your future career. We offer a range of pathways that will ensure you develop an extensive knowledge of business, communications, marketing and a diverse range of other aviation operations. You will experience different business scenarios that will enhance and advance your skills for business.

What will I do?

Delivered by our team of experienced industry professionals, our qualifications give you practical, work-related experience. So, if your passion lies in the world of business, studying at Stansted Airport College, with its creative expertise and links with the industry, will help you realise your dreams.

What can I do next?

You can progress to an HNC/D, an Apprenticeship, university or employment in one of many specialist areas. You could pursue an exciting and sustainable career within one of the following areas, Press & PR, Digital and E-Commerce, Retail Business Partnering, Business Development, Brand and Campaign Management, Commercial Management or Customer Experience. Further opportunities for a career as an accountant, foreign exchange trader, marketing manager or HR consultant also await you.

Fleur, Travel & Tourism student to Cabin Crew for Titan Airways

"I love what I'm doing, and hope to stay in the industry for as long as possible. I've always loved flying since I was little."

ENGINEERING

What's it all about?

Qualified and highly skilled engineers are increasingly in demand in this exciting and rewarding industry. Our Engineering courses will focus on two key engineering areas – Aeronautical Engineering and Operations Maintenance Engineering. If you're looking for real-life experience and the opportunity to progress to work or further study then join the Engineering team.

What will I do?

We offer two exciting pathways in Aircraft Maintenance and Operations Maintenance. You will learn how things work and how to keep them working, using diagnostics, fault finding and maintenance procedures. You will gain knowledge of mechanical and electrical engineering principles and will develop a broad understanding of the huge possibilities within the engineering industry. As well as developing the skills to pursue a career in engineering we will also provide you with the opportunity to gain an in depth understanding of key aviation operations that ensure the smooth running of the airport. Our strong links with employers such as Kearsley Airways, Inflight and London Stansted Airport means you will have opportunities to gain real life work experience and benefit from their vast expertise.

What can I do next?

You can either progress on to further or higher education or apply for Apprenticeships in various sectors that could lead to careers such as an Airfield Engineer, Aerospace Engineer, Maintenance Technician, Terminal Technician or Project Manager. There will also be opportunities to progress to a degree Top-Up qualification.

Jerry, working at London Stansted Airport as an Engineering Apprentice

"I would love to be a technician at Stansted Airport. I enjoy it there and the teams are great. They are willing to teach you as long as you're enthusiastic and willing to learn."

	COURSE TITLE	LEVEL	DURATION

HOSPITALITY & EVENTS MANAGEMENT

What's it all about?

If you have a passion for food and delivering excellent service and you're hard working and dedicated, then our state-of-the-art kitchen and hospitality facilities are the perfect place to start your training towards a career in the Hospitality industry. Join us and get the skills and knowledge you'll need, supported by our highly experienced staff.

What will I do?

You will experience all aspects of the Hospitality sector. In the skills kitchens you will develop your technique using many different foods and equipment, while you will also have the opportunity to gain real life work experience with renowned local employers. Our courses are delivered by tutors who have been professional caterers with a wealth of industrial experience.

What can I do next?

The Hospitality industry offers many exciting career opportunities and we provide clear pathways to a successful career in the industry. London Stansted Airport is home to many famous and highly reputable brand names in the hospitality industry. You could be offering hospitality to one of the many VIP and escape lounges at London Stansted Airport, preparing and making food for restaurants as well as supplying food for airlines. The possibilities are vast and in addition to this you could be working in an international hotel, a Michelin starred restaurant, planning and hosting events or even running your own business. There are also many Apprenticeship opportunities available, or you could progress to higher education.

Sam, studying to work in the Hospitality industry

"I'm looking to go straight into the business. My aim is to work at a professional hotel or a top quality restaurant."
