"Learners make good progress because their teachers plan lessons with good resources that make learning challenging and stimulating."

Ofsted Inspection Report - Harlow College 2016

APPRENTICESHIPS & STEM

Apprenticeships are a great way to get into the world of work and launch a career. At Harlow College we offer around 40 Apprenticeship pathways, in areas such as Building & Construction, IT & Digital, Health & Care, Business and Science.

Science, Technology, Engineering & Maths (STEM) subjects are a key focus for the College, with several large organisations, including Raytheon and Arrow Electronics locating to the new Enterprise Zone in the town.

We have **785** apprentices in training

We supported **355** employers

Our economic return of investment:

£25,235,474.99 (Level 2)

£20,124,134.73 (Level 3)

453 students studying STEM subjects

80 STEM apprentices

IN THE COMMUNITY

Harlow College has a strong relationship with the local community and makes an active contribution to support our civic stakeholders. From local business to voluntary groups and education partners our students and staff have worked with many organisations to enrich the lives and experiences of our community.

Harlow Town Park Regeneration Project

Construction and design students have helped to restore Harlow Town Park as part of a £2.8m regeneration programme. Their contribution has included landscaping, painting and decorating and designing visitor information signs.

Stansted Airport Tunnel Project

Two talented Harlow College students have their work displayed in the pedestrian tunnels at Stansted Airport, which will be seen by over 20 million visitors a year. The live brief gave students the opportunity to pitch their ideas to a panel of experts and see them turned into a reality at the Airport.

Primary Reading Book Project

Over 100 students have worked alongside The Downs Primary School to produce illustrated children's books and animated e-books. The live brief enabled Harlow College students the opportunity to pitch their ideas to their target audience and develop concepts together and return to read and present their finished books.

Young Professionals

This is an exciting initiative that gives our media, journalism and design students the opportunity to work on real 'live' projects and gain valuable work experience. Our students pitch for projects such as video work, logo and website design and have produced work for many organisations, large and small.

National Citizen Service

Over 150 students have participated in college run NCS programmes in the past year. Developing important skills such as teamwork, decision making and leadership through challenging activities and social action projects, our students have made a real mark on our community.

Work with JCPs

Harlow College is committed to helping unemployed people return to work. Our excellent relationship with Jobcentre Plus has enabled us to deliver a range of courses for unemployed people in over 25 areas across the East of England. Over the last 3 years our courses have helped over 7500 people in their search for employment.

FINANCE & RESOURCES

We have **'good'** financial health and regularly invest in our staff, facilities, equipment and campus.

Our excellent facilities include The Salon, offering professional hair and beauty treatments; The Skylight Restaurant, with space for 30 covers, offering a lunch, afternoon tea and dinner menu and our 100+ seat GlassBox Theatre, which regularly stages gigs and shows.

Total Income £22,940,000

● SFA £7,182 ● EFA £13,116 ● HE £1,533
● Other £1,109

50-60% Campus coverage

Desktops/iMacs = 1Gbps
Laptops/Tablets = Up to and
incl 300Mbps

THE FUTURE

The College is continuing to develop new partnership opportunities, with plans well underway to welcome Princess Alexandra Hospital Trust's Staff Training to the campus.

The College is also partnering with The Manchester Group at Stansted to build a Technical & Professional Centre at the Airport.

We continue to grow our Level 4 and 5 provision, with a suite of new HNC/HND courses launching in September 2017.
