Hello from our Principal.

We have state-of the -art facilities.

We have many modern, state-of-the-art facilities at Harlow College, designed especially to enhance the student experience and make your time on campus a memorable one. Here are some of our great facilities.

Click a 360° Tour button and take a virtual tour.

We focus on getting you work ready.

As a Harlow College student you have access to at least 30 hours of work placement during your course. Think of your work placement as a taster of the industry you want to be a part of.

As part of your course you may be invited to take part in an industry placement of 315 hours (45 days) giving you a fantastic career boosting opportunity.

Our STAR Agency has great connections with employers, helping you find your perfect placement. Come and visit us in Careers Central, part of the STAR Agency, in Reception.

So, that's 30
hours to...

Put your skills
into practice

Build industry
contacts

Learn
from the
professionals

Feel your
confidence
grow

We are an Apple Distinguished School.

Distinguished
School

What does this mean for you as a student at Harlow College?

All enrolled 16–18 year old students will be eligible to loan an Apple device, meaning you'll be able to use an iPad in class for your learning, using apps such as Showbie and Padlet.

You will also be able to use your iPads for anything from the latest virtual reality programmes to online learning.

We are an Institute of Technology.

Institutes of Technology (IoTs) are prestigious and high-quality education providers delivering higher level technical education with a clear route to high-skilled employment.

The Secretary of State describes them as “the pinnacle of technical training”. IoTs are a new type of provider, designed specifically to deliver the higher-level technical STEM skills that employers and the economy need.

Become an Apprentice.

Apprenticeships are a great way to get ahead in the world of work, whether you're at the start of your career, want to change career direction, or if you're returning to work after a break.

Apprenticeships are available from Level 2 all the way to Degree Level and depending on which Apprenticeship you choose, what level it's at, and your previous experience, your Apprenticeship can take between one and six years to complete.

We put our students at the heart.

Learning Support

The College prides itself in giving high quality support to individuals with learning difficulties, disabilities, or other additional needs including emotional, medical, social or behavioural. By providing the right type of support we work hard to enable you to achieve excellence and reach your full potential.

Keeping you Safe

The College has a responsibility to provide you with a safe learning environment. The College provides a fully trained safeguarding team who are available to help you with any concerns you may have – these may include: bullying, family issues, homelessness or concerns about becoming radicalised, drawn into extremist behaviour or getting involved in County Lines.

Financial Support

The College administers a Bursary Fund to assist students with costs related to attending College. They may include: travel costs, uniform, equipment, educational visits and meal costs. Your eligibility will be assessed according to your personal circumstances, your household income and the course that you're studying. The Bursary desk is open daily in the STAR Agency.

Pastoral Care

All full-time students have a Learner Mentor to guide them through their study programmes. You will have a weekly tutorial session to discuss your Individual Learning Plan (ILP) and any issues or problems that you may be working through – your Mentor will be able to signpost you to the most appropriate support.

English & Maths

Having strong skills in English and maths remains one of the most important assets for employment and life. All our courses include aspects of English and maths and if you haven't achieved a grade 4 or above from school you will continue to study these subjects through our GCSE and functional skills lessons.

Alternative Education

We know that some learners may have had different experiences in their schooling and their learning may have been affected by health problems, challenges with moving schools or attendance problems. This can adversely affect their confidence and grades and it may feel like the standard course offers don't quite fit their needs or learning support requirements. If this describes your situation, our Student Services team would welcome a conversation with you to find their best way forward.

Your learning continues outside the classroom.

You don't have to be sporty or arty to get something out of our enrichment programme. Taking part in enrichment will help you to develop the important wider skills that employers look to find in young people. As well as giving you new challenges and developing your skills you will make new friends and have some fun!

Wednesday afternoons are dedicated to enrichment for our students. There is something for everyone and if you want an activity not on offer, our enrichment team will try and make it happen!

We have study options to suit everyone.

Not sure what level courses you can apply for?

A Levels

If you enjoy academic learning and want to study a broad range of subjects, A Levels could be the perfect option for you. They are valued by employers and universities and are a popular entry route into higher education.

At Harlow College we offer a choice of 16 A Levels plus the option of BTEC subjects in our specialist Sixth Form Centre. Most of our students study four A Level subjects over their two years with us. Some subjects have elements of coursework but the majority of assessment will be through the end-of-course exams.

Apply online any day, any time.

- ① Go to:
www.harlow-college.ac.uk
- ② Choose a course
- ③ Click 'Apply' and complete the application form

Every day is an Open Day.

The best place to keep up to date with our news and events is on our website and social media channels.

Our next College Open Evenings are:

Wednesday 25 January 2023 5–8pm
Tuesday 28 March 2023 5–8pm

Harlow College
Velizy Avenue
Harlow, Essex
CM20 3EZ

**Find us on
Google Maps**
